

**Silver Themed Desk Clock – Beyond the Call  
Item # 91140 Clock Instructions**

**Getting Start**

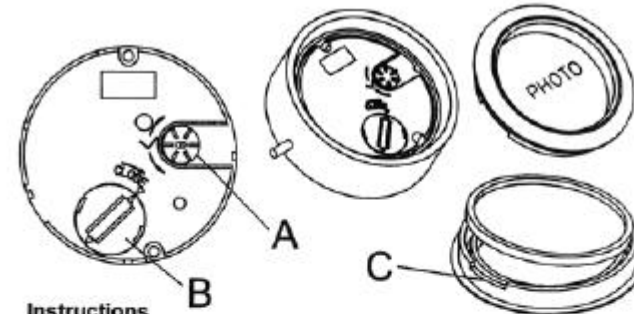

Pull firmly on the insulating tape that extend from the battery compartment to remove the tape and activate the batteries.

**Batteries Replacement**

M1-1160

**Instructions**

**1. Battery Installation**

Using the tip of your finger or the edge of a coin, slide open the Battery Cover (B) and insert a battery (LR44) with "+" side facing up.

**2. To Set Time**

Turn Time Set Button (A) in either direction until the hands show the actual time.

**3. Usage**

Pull out the factory-installed battery insulation strap to start clock.

**4. Photo Replacement (if installed with a Photo Frame)**

Turn the photo frame upside down and use a small standard screwdriver to pry open the plastic backing (C). After replacement snap the backing in.

**Specifications**

1. One LR44/SR44 1.5V battery.
2. Time Accuracy = +/- 30 seconds per month at room temperature.
3. Ambient Operation Temperature : -10°C to 50°C
4. Thermometer Accuracy (If installed with a thermometer instead of a Photo Frame) : +/- 1 degree Celsius.
